Headteacher: Mr. James Pilgrim

8th January 2019

Dear Parents / Carers,

Maths Methods Workshop for Parents / Carers – Tuesday 5th February

Being able to support your child's learning at home is key and makes a real difference. It enables children to consolidate what they have learnt in school, improves their recall and builds their confidence to apply their learning to different contexts.

In order to keep you informed of what is happening in our Maths lessons, we will be running a Maths Methods Workshop just for adults on **Tuesday 5th February, 6-7.30pm**. This practical workshop will run through the methods your child is learning in school to solve problems involving the four operations (addition, subtraction, multiplication and division) and strategies to use to support their learning at home.

Kind regards,

Mrs Tough
Assistant Head Teacher (Primary Lead)
